👋 About Me

I'm Olamide, a frontend developer focused on building clean, responsive landing pages and user interfaces. I enjoy crafting polished, interactive UIs using React and Tailwind CSS, and I'm always working to sharpen my design-to-code execution.

💼 Work Experience

Freelance Frontend Developer
Remote · Oct 2023 – Present

- Designed and built modern, responsive landing pages using React, Tailwind CSS, and TypeScript.

- Worked on personal and freelance projects focused on clean UI, responsiveness, and speed.

- Collaborated with designers and turned static mockups into interactive, mobile-first web experiences.

🔧 Tech Stack

Frontend:

- Next js, React.js, TypeScript, JavaScript

- Tailwind CSS, Framer Motion

Tools & Platforms:

- Git, GitHub, Vercel

- Figma (for UI reference)

- EmailJS (for contact form handling)

Soft Skills:

- Communication
- Problem-solving
- Adaptability
- Time Management
- Attention to Detail

📌 Projects

Nike E-commerce Landing Page
Built a clean, animated Nike-themed landing page showcasing product sections, CTAs, and smooth transitions. Stack: React, Tailwind CSS, Framer Motion.

Brainwave AI Chat App Landing Page
A sleek one-page concept site for a fictional AI chat tool. Designed with a strong visual hierarchy and motion. Stack: React, Tailwind CSS.

MovieApp Landing Page
Landing page promoting a fictional movie platform. Emphasized UI responsiveness and minimal design. Built using React, Tailwind CSS, and Appwrite.

🧹 Quick Facts

- 2+ year of real-world frontend development experience

- Self-taught and committed to continuous improvement through real projects

- Helping others get started in code (even helped my younger brother learn Python on mobile)
